### **MathNook Partners with AWE Learning on Launch of Verison 3**

AWE Acquisition, Inc., dba AWE Learning, is excited to announce its recent partnership with MathNook. Headquartered in Chester, Pennsylvania, AWE Learning is the leading provider of digital learning solutions for public libraries throughout the United States and Canada.

The Version 3 upgrade includes a release mode, providing customers with an easy and quick interface, which makes the app more compact and faster, and improves overall performance. Version 3 also includes new and engaging educational titles, ELF child-safe browser, a remote assistance tool, and a new and improved Administrative Panel and Customer Portal. The Administrative Panel features include but are not limited to auto shutdown times, volume control settings, Personalized Education Plans, and networking options.

Through AWE Learning's partnership with MathNook, we have sourced new content to provide young learners with premier educational titles designed to help prepare them with school readiness skills and excel in the classroom. MathNook's educational activities help young learners in reinforcing and practicing the math part of their STREAM skills, build their confidence level, and have fun while learning! "We have lots of exclusive educational games not found anywhere else," said MathNook.com Co-creator, Tommy Hall. "And we're excited about this partnership with AWE Learning as we're continually adding more unique math games and activities to help everyone of all ages sharpen their math skills."

AWE Learning President & CEO, Dr. Deborah B. Sorgi, said, "We are excited to partner with MathNook. Their math games and activities are a wonderful addition to our existing portfolio of fun, engaging and interactive STREAM-based content for children ages 2-12. We look forward to a long and rewarding relationship with MathNook and know that our customers will love their English and Spanish math games just as much as we do."

#### **About AWE Learning (<http://www.awelearning.com>)**

AWE Learning provides comprehensive digital learning and early literacy solutions for young children in public libraries across the United States. Our mission is to inspire an enthusiasm for learning by supporting school readiness and literacy in the community. Through our dedication to high quality, STREAM-aligned content that is easy to use, we collaborate with libraries to highlight their role as community leaders in the pursuit of learning.

#### **About MathNook (<http://www.mathnook.com>)**

MathNook offers free to play math games that practice skills ranging from counting numbers all the way up to quadratic equations. And there's never any membership or sign-up required. MathNook's goal is to help develop critical thinking and problem solving in order to improve math skills via our fun and exciting math games.
