What Our Customers Have To Say:

“The AWE Learning company has been great to work with. They are prompt, courteous, and very customer service oriented. The computers are more than capable of withstanding the constant barrage of kids using them. Not much technology holds up quite like AWE.”

“We love our AWE stations.”

Premier Content Partner Spotlight: Help Me 2 learn

At AWE Learning, we're passionate about providing fun, educational digital experiences for young learners and that means partnering with the best in the industry. One of our standout content partners is Help Me 2 Learn! Through our partnership, Help Me 2 Learn's dynamic content is seamlessly integrated into AWE Learning's digital platform, making it available to young learners in libraries, classrooms, and other educational settings across the country.

More From Help Me 2 Learn

HelpMe2Learn has a long-standing commitment to making learning enjoyable and effective for children. Founded with the goal of combining education with technology in a meaningful way, they've developed award-winning programs that teach essential reading, phonics, math, and English language skills. Their interactive, game-based learning approach is built to engage children and reinforce key concepts in a fun, memorable way.

CHART 1

Participation in a Structured Summer Learning Experience, 2023

% Participated

Figures are the percentage of parents of K-12 children who did/did not have their child in one or more of the following activities in summer 2023: a local day camp; an overnight camp; summer school; weekly enrichment classes; a day care program; a summer job or internship.

According to the National Summer Learning Association and the American Camp Association's Summer Learning Experiences Survey, an estimated 30 million youth participated in structured summer programs during the summer of 2023. This participation highlights the importance of summer programs in supporting children's educational development and providing opportunities to stay engaged and prepared for the upcoming school year.

AWE Learning is committed to supporting children's education all year long by providing fun, accessible digital tools that build early literacy and school readiness skills. Public libraries are key partners in making these resources available to every child. To help keep young learners engaged over the summer, we've prepared a **Summer Implementation Guide**, an easy way to extend learning beyond the classroom and support lifelong academic success.

Grant Resources

AWE Learning is committed to helping public libraries locate regional and national grants that can be used for Early Literacy Resources! Contact an Account Executive or info@awelearning.com today to see what potential grants you may be eligible for!

Customer Support Tips

- **Important! Do NOT insert any zeros in the Admin Panel timers or Warning Timers!**
- Turn off your computer when it's not in use.
- Be sure to plug your AWE computer into a surge protector to prevent software corruption or hardware damage.
- AWE software does not connect reliably to unsecure networks (Wi-Fi networks with no passwords).
- When connecting to your network, the AWE software cannot connect to a hidden network.
- To check if your computer is automatically uploading usage data to the customer portal, click the **"Send Utilization Statistics to the Portal"** button in the Admin Panel.
- Click it once and wait. You will see a small circle, then you will get a Sync Complete message.
- If you do not get the message, it is not auto-uploading.
- Be sure your time, date and time zone are correct on your computer so your usage data will accurately reflect in your reports.
