

ELF™ Child-Safe Browser: *Education = Learning + Fun*

The ELF™ Child-Safe Browser features 80+ child-appropriate, educational, and fun websites!

Kids Explore on Their Own

- Imaginative and interactive interface is easy to navigate to access content
- Websites are organized by subject area and interest
- Provide patrons a link to access the educational and safe content on the ELF™ Child-Safe Browser from home

Safe Educational Content

- Website content selected and managed by AWE Learning
- Websites carefully chosen by recommendations from ALA and Children's Technology Review, as well as input from teachers, parents, customers, and children
- Websites are appropriate for children of all ages and cover the seven subject areas—they are all fun, safe, and minimally commercial

Add Your Own Approved Sites

- Add your own approved sites to the ELF™ Child-Safe Browser
- Children cannot follow links (such as advertisements) to other sites except to those specifically allowed
- Usage statistics, accessible from the Customer Portal, let you know which sites are most popular, how many ELF browser links that you provided to patrons are in use, and more
- Little or no adult intervention required—kids can browse safely and easily

Visit the AWE Learning website today to download a FREE trial of the ELF™ Child-Safe Browser.
