General Tips:

- For smoother operation, re-boot the system daily.
- For applications that have "online" options, you may encounter an error message; if this occurs, hit ESC.
- Some programs may not save your progress if you exit using the Windows button or exit gesture, we recommend exiting these programs using their own exit button.
- We have created Guest accounts for many of the content programs that require user accounts.

If you have a Bilingual Workstation, click on the flag on the main interface on the bottom left-hand corner, to toggle between the English content and the Spanish or French content.
