

Setup Guide for the AWE Support Stand MSI Model

Thank you for purchasing the AWE Learning Support Stand to provide extra stability and support for your AWE workstation. It is constructed of high-quality steel and features non-skid rubber padding for desk surface protection. Our stands are made in the USA.

Included Parts:

- 1 Support Stand Base
- 1 Hex Wrench
- 1 Hex Mounting Screw

Before You Begin:

- Check that all parts are included.
- Power off your AWE Learning Workstation.
- Carefully disconnect all wires and cables from the unit.
- Ensure that you have a clean workspace to assemble stand and attach the workstation.

Instructions:

- Lay the AWE Learning workstation flat on a clean workbench
- On the back of the AWE Learning unit, you will see the rear arm connected to the back of the computer.
- Do not attach the base that comes with the computer; if you have already installed the base, remove the base with the thumbscrew.

- Line up the 2 studs on the support base with the rear arm and from the bottom install the hex screw.
