What Our Users Have To Say:

"The variety of games that are on there (AfterSchool Edge) are amazing. All of the children love them, whether they're in fifth grade or in kindergarten."

"The kids gravitate to those stations immediately...They're easy for the kids to use; they don't need a lot of instruction, and the kids can do it independently."

"The AWE workstations help preschool students prepare for success in school and beyond. Our teachers appreciate the engaging content that supports early literacy and STEAM concepts."

"This system adds value to the children's program. Children today are growing up with technology all around them, and the more we can implement a technological aspect to a child's learning, the more they're going to respond to it."

Learn More About Our Award - Winning Products

AWE would love to hear from you!

AWE Learning would like to feature you on our social media and/or customer spotlight section of one of our upcoming newsletters. Email your feedback and photos to info@awelearning.com.

We would also like to thank each of you for your continued support and investment in your young learners' future!

Meet Brad Gray!

Midwest/Mountain Senior Account Executive

Brad joins the AWE Learning team, bringing years of experience in the library and learning communities with him!

Brad is an avid Minnesota Vikings fan and will be bringing AWE Learning's Award-Winning products to the Midwest and Mountain Regions!

Quarterly Blog

Incorporating Fun into Math!

MathNook and AWE Learning team up to bring fun and new ways to teaching young learners basic math skills!

Read what Mathnook does and what they are currently doing to continue to stand out in Mathematical Education!

[Read Our Blog](#)

More From MathNook:

MATH NOOK
[Math Games and More]

MathNook was formed by Jan and Tommy Hall. Jan has over 30 years of experience in the education field and Tommy is a programmer with a math degree who is also an avid gamer.

This combination makes MathNook stand out with their unique math games that not only are educational but are also very playable causing players to come back for more.

Resources We Recommend!

Check out our carefully curated resources for this quarter, including printable activities and book recommendations from the American Library Association and Scholastic!

Autumn Word Problems
Use addition, subtraction, multiplication, or division to solve the following word problems.

1. Daniel raked 45 brown leaves, 71 orange leaves and 53 yellow leaves in his front yard. How many leaves did Daniel rake all together?
2. Alice bought 300 sheets of lined paper for the school year. If she used 64 sheets during the first month, how many sheets does she have left?
3. Chris carved three times as many jack-o'-lanterns as his friend, Thomas. If Thomas carved 3 jack-o'-lanterns, how many did Chris carve?
4. Kevin took 45 minutes to reach the end of a corn maze. It only took Jeanette 31 minutes. How many fewer minutes did it take Jeanette to finish the corn maze?
5. Phil played 50 games of football during the fall. Steven only played in half of those games. How many football games did Steven play?

Customer Support Tips

- Version 3.12 is available! Update your workstation(s)/tablet(s)!
- Turn off your computer when it's not in use.
- Be sure to plug your AWE computer into a surge protector to prevent software corruption or hardware damage.
- AWE software does not connect reliably to unsecure networks (Wi-Fi networks with no passwords).
- When connecting to your network, the AWE software cannot connect to a hidden network.

Are you on Platinum Version 2 and looking to upgrade to Platinum Version 3?

Contact our Support team today to see if you are eligible!

Need to contact Customer Support?

If you are unable to get through via phone, please contact our Support Team via e-mail at support@awelearning.com and they will be sure to get in touch with you.

Support is available M-F 9am - 5pm ET.
