

AWE Learning for Homeschool & Family Learning

Families today are navigating how to balance screen time with meaningful learning. AWE Learning helps libraries and families provide developmentally appropriate, engaging, and active screen time that supports children's growth. It also gives families a trusted, structured space to learn together.

Used by over 49% of public libraries nationwide, as well as many schools and individual families, AWE Learning workstations support individualized learning in safe, child-friendly environments designed specifically for children ages 2–12. AWE Learning is **especially valuable for homeschooling** families and caregivers seeking consistent, structured learning time in a space they already trust.

AWE Learning Supports Learning — Not Passive Screen Time

- Developmentally appropriate learning games designed by educational content partners.
- Active engagement through reading, problem-solving, creativity, and exploration.
- No internet access, no ads, and no external content.
- Children can learn independently while caregivers focus on other needs.

A Learning Resource That Fits Real Family Life

- Provides structured, independent learning time that children enjoy.
- Support multiple children of different ages at one workstation.
- Reinforce literacy, math, science, and problem-solving skills outside the traditional classroom.

Serving Your Whole Community

- Offers plug-and-play use with no logins, accounts, or daily management required.
- Includes U.S.-based support, a fixed one-time cost, and content modules that grow with children over time.

Why Families Love AWE Learning

- Safe, child-friendly learning
- Learning that feels like play
- Independent use kids enjoy
- Supports all kinds of learners
- Trusted by libraries and teachers nationwide
- Scaffolded content that grows with children over time

AWE Learning is especially valuable for homeschooling families and caregivers seeking structured learning time in a trusted environment.
