

AWE Learning for Homeschool & Family Learning

Families today are navigating how to balance screen time with meaningful learning. AWE Learning helps you provide developmentally appropriate, engaging, and active screen time that supports children’s growth, while giving families a trusted space to learn together

Used by over 49% of public libraries nationwide, AWE Learning workstations offer a safe, offline learning environment designed specifically for children ages 2–12.

AWE Learning Supports Learning — Not Passive Screen Time

- Developmentally appropriate learning games designed by educational content partners.
- Active engagement through reading, problem-solving, creativity, and exploration.
- No internet access, no ads, and no external content.
- Children can learn independently while caregivers focus on other needs.

A Learning Resource That Fits Real Family Life

- Engage children in safe learning activities while parents attend ESL classes, GED programs, job training, or use library services.
- Support multiple children of different ages at one workstation.
- Reinforce literacy, math, science, and problem-solving skills outside the classroom.

Serving the Whole Community

- Equitable access to high-quality educational tools.
- Safe learning opportunities for families without reliable home technology.
- Support for homeschoolers, caregivers, and lifelong learners.

Why Families Love AWE Learning

- Safe, child-friendly learning
- Learning that feels like play
- Independent use kids enjoy
- Supports all kinds of learners
- Trusted by libraries nationwide

AWE Learning is especially valuable for homeschooling families and caregivers seeking structured learning time in a trusted environment.
